These benefits combined with an excellent track record have earned Supermicro a reputation as a true leader in the high-end server/storage industry. Supermicro provides the most outstanding product line in the industry, ranging from single Atom™ and dual Xeon ® to quad Xeon ® MP systems. Their proven high level of quality and performance has made SuperServers the platform of choice for HPC, enterprise, cloud, data center, hyperscale, embedded, and business-critical, front-end server ...

~~SuperServer®-Systems-Supermicro~~

Supermicro Rackmount Servers are application-optimized to improve workload performance and data center energy efficiency with the highest levels of quality and reliability.

~~Rackmount Servers-Supermicro~~

Founded in 1993, Supermicro Computer, Inc. emphasizes superior product design and quality control to produce highly reliable mission-critical servers that maximize price/performance ratio for its customers. Always first to deliver, Supermicro's high-end motherboards and servers consistently outperform the competition.

~~Supermicro-SCAN-UK~~

The Mainstream Application Optimized SuperServer® product family from Supermicro is a series of servers designed for entry level or volume selections. Enterprise IT Managers can choose the exact model for their applications, with a precise set of integrated features needed for their applications.
