A companion to the Reading Topographic Maps Gizmo, the Gizmo allows students to create contour lines by raising or lowering the water level in a landscape. Starting with a randomly generated 3D landscape, students can raise or lower the water level and then trace a contour line where the water meets the shore. After creating their map, students ...

### ExploreLearning Gizmos: Math & Science Simulations

Measure the temperature and oxygen content of a pond over the course of a day. Then go fishing to see what types of fish live in the pond. Many different ponds can be investigated to determine the influence of time, temperature, and farms on oxygen levels.

### Pond Ecosystem Gizmo - ExploreLearning

A forest ecosystem includes all of the organisms in the forest environment as well as the chemical and physical elements of that environment that influence them. Forest ecology is the study of such ecosystems, which tend to be both structurally and biologically complex and diverse.

### Information About a Forest Ecosystem | Sciencing

Urban ecosystems currently cover about 4% of the world's surface. But with the rapid growth of cities worldwide, urban ecosystems are perhaps the only major ecosystem type that is expanding.

### PBS - Bill Moyers Reports: Earth on Edge - Urban Ecosystems

An ecosystem is made up of animals, plants, and bacteria as well as the physical and chemical environment they live in. The important thing about ecosystems is that the organisms within them exchange energy and nutrients among themselves and with the environment. How much do you think you understand about our ecosystem? Take up the test below and get to find out!
