If you are looking for a guide on starting a saltwater aquarium, you have come to the right place. The expression goes that 'a dog is for life, not just for Christmas', but the same can be said for a living, breathing aquarium. The time and effort that can go into creating the perfect saltwater ecosystem is no small feat, so you'll want to be sure that this hobby is for you.

*Starting a Saltwater Aquarium for Beginners | Fish Tank World*  
Setting Up Your Marine Aquarium. After setting up a new marine aquarium with live rock, substrate, saltwater, leave it with any equipment running for a minimum of 3-4 weeks before adding any live stock. This gives the aquarium time to circulate and any die-back from the live rock can happen without causing water problems which have the potential to harm fish and corals.
