Fifteen dialogues loosely based on encounters of a Catholic apologist with Protestants, over the course of nearly five years of Internet discussions on lists, bulletin boards, and private correspondence. The most important and fundamental issues that divide Protestants and Catholics are dealt with: the relationship of Bible and tradition, the authority of the Church, whether the Church and tradition can be infallible like the Bible, how one is saved, the relationship of faith and works, whether Catholics believe in "salvation by works," grace alone, etc.

Stand with Children equips Catholics to engage the culture with a reasoned approach expressing God's plan for creation that is not dependent on belief in God. Marriage, the only institution that unites kids with their moms and dads, has been recognized by every culture, society, and religion, each according to their own competencies. Book jacket.

What could Roman Catholicism and Mormonism possibly have to learn from each other? On the surface, they seem to diverge on nearly every

point, from their liturgical forms to their understanding of history. With its ancient roots, Catholicism is a continuous tradition, committed to the conservation of the creeds, while Mormonism teaches that the landscape of Christian history is riddled with errors and apostasy and in need of radical revision and spiritual healing. Additionally, successful proselyting efforts by Mormons in formerly Catholic strongholds have increased opportunities for misunderstanding, polemic, and prejudice between the two faiths. However, as demonstrated in this unique and spirited dialogue between two theologians, one a convert to Catholicism and the other a convert to Mormonism, these two traditions are much closer to each other than many assume, including in their treatment of central doctrines such as authority, grace, Jesus, Mary, and revelation. Both Catholicism and Mormonism have ambitiously universal views of the Christian faith, and readers will be surprised by how close Catholics and Mormons are on a number of topics and how these traditions, probed to their depths, shed light on each other in fascinating and unexpected ways. Catholic and Mormon is an invitation to the reader to engage in a discussion that makes understanding the goal, and marks a beginning for a dialogue that will become increasingly important in the years to come.

The fourth installment in a wide and deep constructive theology for our time This fourth volume in Veli-Matti Kärkkäinen's ambitious five-volume systematic theology develops a constructive Christian pneumatology and soteriology in dialogue with the diverse global Christian tradition and with other major living faiths – Judaism, Islam, Buddhism, and Hinduism.

Most Bible introductions are the product of a single person or present only one perspective. Written by and for people from a variety of faith traditions, this distinctive introduction represents the work of fifteen Protestant and Catholic scholars--all members of the same theological faculty, but representing a diversity of backgrounds and approaches. Part I introduces the Bible itself: its library-like character; its geography, history, and archaeology; the books of each Testament; important noncanonical books; the Bible's various Jewish and Christian forms; and its transmission and translation. Part II covers the interpretation of the Bible at various times, in various traditions, and for various reasons: in the premodern period and in the modern and postmodern eras, including recent critical, theological, and ideological approaches; in Protestant, Catholic, Orthodox, and African-American churches; and for spiritual growth, social justice, and Christian unity. Offering helpful insight into how Christians (and others) have agreed and disagreed in their approaches to the Bible, it provides students with a clear, succinct introduction to Scripture as divine and human word.

collection of correspondence, articles, interviews, and other short-form writings by Barth. Collected in three volumes, *Conversations* reveals the depth and breadth of Barth's theological thought, as well as his humor and humanity. Now, for the first time in English, the second of those volumes is offered here. Covering the year 1963, Volume 2 highlights a period in which Barth was especially active, particularly in regard to ecumenism and issues related to the Cold War. Within these pages, scholars and students will find a comprehensive view into Barth's life and beliefs about theology and its role in modern society.

Fourteen Presbyterian scholars enter into conversations with the confessions of the Presbyterian Church (U.S.A.) and examine the major theological themes that make the confessions such foundational commitments of faith. This collection of insightful essays provides readers with a clear understanding of the confessions from different periods of the church's life. These conversations with the confessions found in the PC(USA)'s Book of Confessions include some illuminating commentary on why they were written and demonstrate how they can be used to address major theological issues. This important work will help scholars, pastors, and church leaders interested in studying the Reformed tradition appreciate the role of the confessions in shaping Christian life and faith today.

A monumental collection--essential for academic and seminary libraries and highly recommended for public libraries as well. *Library Journal* An important new voice in contemporary philosophical- theological discourse, this book highlights a number of issues that have been of particular concern to scholars, religious leaders, politicians, and the general public since the end of World War II. The contributors' purpose is to force a reexamination of basic concerns in religion, religious beliefs, and religious studies -- and to encourage both a reshaping of entrenched attitudes and a continuation of meaningful dialogue among different religious groups. To this end, they address a wide range of topics, from the perplexing problem of relativism and the issue of feminism in the church to questions of Muslim identity and Hindu-Christian dialogue. Divided into two principal parts, the book begins by exploring a broad spectrum of religious issues. Norbert Samuelson analyzes theism and atheism in Western religious philosophy, Ernest Stoeffler focuses on the parallel trends of conservatism and liberalism in American Protestantism; Gustavo Benavides examines religion and modernization in Latin America. Additional papers address a universal theology, Christianity and sociopolitical thought, postwar neo-Confucian philosophy, among other topics. In the second section, the contributors turn to interreligious dialogues, examining the ways in which various religions have attempted to forge deeper mutual understanding -- often in the face of rising sociopolitical tensions. Taken together, these essays offer an eloquent testimonial to the critical importance of interreligious dialogue in contemporary society. *Religious Issues and Interreligious Dialogues* will be an
