Comparative Politics of the Third World: Linking Concepts and Cases is a good book with a lot of information as the previous reviewer has indicated, however because it's 2007 printing, it needs to have a supplementary text or articles to update the area between where the book leaves off and modern day. However that glaring weakness accepted, this book does provide very good and detailed histories of the countries in the book : Iran, China, Indonesia,

Comparative politics is a subdiscipline of political science. The goal of political science is to promote the comparison of different political entities, and comparative politics is the study of domestic politics within states. It differs from the other subdiscipline of political science—international relations—which instead focuses on politics between states.
