Finance, 4e, by Cornett/Adair/Nofsinger incorporates the newest technology to facilitate the learning process, saving valuable time for you and your students. The Fourth Edition continues to provide the core topics for the course, highlighting personal examples to help students relate to the material. Cornett's superior pedagogy, extensive end-of-chapter problems, emphasis on the personal perspective, and focus on the core concepts combine with a complete digital solution to help students achieve higher outcomes in the course. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

This textbook incorporates the newest technology to facilitate the learning process, saving valuable time for you and your students. The fourth edition continues to provide the core topics for the course, highlighting personal examples to help students relate to the material.

The fifth edition continues to provide the core concepts for the undergraduate corporate finance course, as well as key research and current topics. Also, this is the first text to use individual examples to help students better understand the material. The framework of this text helps students understand how to approach core financial concepts by emphasizing three themes: Finance is about connecting core concepts Finance can be taught using a personal perspective Finance focuses on solving problems and decision making
