Details The FS 6600 D is a powerful and highly efficient saw. Its power / size ratio makes it an extremely versatile and super-productive saw in all cutting applications, particularly when the saw is equipped with the 3-speed gear box.

husqvarna FS 6600D | Spec-West

FS 6800 D is a diesel walk-behind flat saw for large and mid-size jobs. A Tier 4 interim compliant engine reduces emissions and the power transmission system transmits more power to the blade shaft with optimum torque than similar models in its class. Like other large flat saws, FS 6800 D can accommodate different blade sizes and electric tracking of rear axle, but the addition of the 3-speed ...

On the FS 6600 D and FS 4800 D, the gearbox shift lever is used to change the output speed of the engine gearbox. Three speeds and two neutral positions are standard. The gearbox shift lever positions are colour-coded to match the blade diameter and the bladeshaft rpm decal located on the control panel.
