Many introductory Corporate Finance textbooks tout their engaging, real-world examples, but they often fail to hold students' interest. "A Novel Introduction to Corporate Finance" offers a unique, innovative, and refreshing contrast. Structured as a work of literary fiction, the book successfully uses a compelling narrative to tell the story of Corporate Finance. Students read about struggling Finance major Derek Foster, and his relationship with Eric Bensen, the CEO of Caspian Sea Drinks. Eric becomes a mentor to Derek. The two meet weekly as Eric shares the story of how Caspian Sea Drinks grew from a humble lemonade stand to a publicly traded company. Their conversations provide an engaging context in which the fundamental concepts and principles of Corporate Finance are presented, both to Derek and to the student reader. Plot twists provide opportunities for additional examination and discussion of ethics in the corporate world. "A Novel Introduction to Corporate Finance" successfully employs fiction to provide students with a realistic, coherent view of what a corporation is, how it comes to be, and why Finance plays an important role in corporate development and growth. The format

raises fascinating questions that are often overlooked in introductory courses. Students are interested in the plot and the fate of the characters, and are consequently highly motivated to understand the integrated business concepts. By following the story, students learn about topics ranging from angel investors to venture capitalists, IPO's to derivatives. Rather than struggling to read a standard text that presents each topic separately, and often includes more material than can be successfully covered in one course, "A Novel Introduction to Corporate Finance" offers a cost-effective alternative that speaks to the power of story-telling as a valuable educational tool. This book is ideal for Introduction to Corporate Finance and Business Finance courses. It is an excellent teaching tool for first-time instructors, who will benefit from using a story to inform each topic. Jonathan Godbey earned his Ph.D. at the University of Georgia. He serves as the course coordinator for the introductory Finance Course at Georgia State University. Dr. Godbey is the founding editor of the "Journal of Undergraduate Research in Finance." Jason Mehl earned his MFA at Columbia College Chicago. He is an Assistant Professor of English at Toccoa Falls College. Previously, he served as the Athletic Director at Uganda Christian University, where he also taught writing and coached basketball.

Introduction to Corporate Finance, Second Edition continues to be a landmark in Canadian corporate finance. Written from the ground up by internationally recognized researchers, Laurence Booth, University of Toronto and W. Sean Cleary, Queen's University, the text is built around a unique framework that recognizes that finance rests upon three distinct legs: economics, accounting, and law. The text enables instructors to provide their students with a solid foundation in the theory and application of corporate finance, but with extensive coverage of new areas of finance that are important to Canadians. The state of the financial world and the global financial crisis has dominated world affairs, with everyone wanting to know: What happened? Why? Where do we go from here? Introduction to Corporate Finance, Second Edition addresses these questions with clear, easy-to-understand discussion and analysis suitable for introductory finance students. In addition, each chapter includes a new Lessons to be Learned feature that illustrates an important concept in that chapter, and how that basic tenet of finance was either ignored and thus fuelled the financial crisis, or was adhered to and helped to mitigate the effects of the crisis. This highlights and reinforces the concept to readers the future leaders of our business community.

Based on a popular class taught by a Harvard Business School professor. If you're not a numbers person, then finance can be intimidating and easy to ignore. But if you want to advance in your career, you'll need to make smart financial decisions and develop the confidence to clearly communicate those decisions to others. In How Finance Works, Mihir Desai--a professor at Harvard Business School and author of The

Wisdom of Finance--guides you into the complex but endlessly fascinating world of finance, demystifying it in the process. Through entertaining case studies, interactive exercises, full-color visuals, and a conversational style that belies the topic, Professor Desai tackles a broad range of topics that will give you the knowledge and skills you need to finally understand how finance works. These include: How different financial levers can affect a company's performance The different ways in which companies fund their operations and investments Why finance is more concerned with cash flow than profits How value is created, measured, and maximized The importance of capital markets in helping companies grow Whether you're a student or a manager, an aspiring CFO or an entrepreneur, How Finance Works is the colorful and interactive guide you need to help you start thinking more deeply about the numbers.
