Jesus Calls for Justice and Mercy This five-week unit features readings related to forgiveness, Jesus'; criticism of unjust leaders, persistence in pursuing justice, entering God's kingdom, and God's invitation to everyone to "the Great Dinner." Paul Teaches About New Life in Christ The daily readings in this four-week unit explore what God's justice involves, how to pursue global economic justice, what loving and just behavior looks like, and how to practice justice. If you want a holiday that's hassle-free, virtually pre-paid, and that lets you see lots of places while only needing to pack and unpack once, then you should try a cruise. This best-selling book is the cruise industry bible: it gives you all the information you need to choose the right cruise for you. Meticulously updated every year by cruise expert Douglas Ward, it is divided into two main parts: the first helps you work out what you're looking for in a cruise holiday and how to find it; the lively text and colour photographs describe every aspect of life on board, including safety, the highs and lows of the cruise experience and how to save money. The second part contains unbiased reviews and fascinating detail of almost 300 ocean-going cruise vessels, and grades them on service, food, entertainment and facilities, using an internationally recognised ratings system.

This volume explores word order change within the framework of diachronic generative syntax. Word order is at the core of natural language grammatical systems, linking syntax with prosody and with semantics and pragmatics. The chapters in this volume use the tools provided by the generative theory of grammar to examine the constrained ways in which historical word order variants have given way to new ones over time. Following an introduction by the editors, the book is divided into four parts that investigate changes regarding the targets for movement within the clausal functional hierarchy; changes (or stability) in the nature of the triggers for movement; verb movement into the left peripheries; and types of movement, with specific focus on word order change in Latin. Data are drawn from a wide variety of languages from different families and from both classical and modern periods, including Sanskrit, Tocharian, Italian, Portuguese, Dutch, Irish, Hungarian, and Coptic Egyptian. The book's broad coverage and combination of language-internal and comparative studies offers new perspectives on the relation between word order change and syntactic movement. The volume also provides a range of wider insights into the properties of natural language and the way in which those properties constrain language variation and change.

Following the award-winning BBC Radio 4 series, a panoramic exploration of peoples, objects and beliefs from the celebrated author of *A History of the World in 100 Objects* and *Germany* 'Riveting, extraordinary ... tells the sweeping story of religious belief in all its inventive

variety. The emphasis is not on our differences, but on shared spiritual yearnings' Rachel Campbell-Johnston, *The Times*, Books of the Year One of the central facts of human existence is that every society shares a set of beliefs and assumptions - a faith, an ideology, a religion - that goes far beyond the life of the individual. These beliefs are an essential part of a shared identity. They have a unique power to define - and to divide - us, and are a driving force in the politics of much of the world today. Throughout history they have most often been, in the widest sense, religious. Yet this book is not a history of religion, nor an argument in favour of faith. It is about the stories which give shape to our lives, and the different ways in which societies imagine their place in the world. Looking across history and around the globe, it interrogates objects, places and human activities to try to understand what shared beliefs can mean in the public life of a community or a nation, how they shape the relationship between the individual and the state, and how they help give us our sense of who we are. For in deciding how we live with our gods, we also decide how to live with each other. 'The new blockbuster by the museums maestro Neil MacGregor ... The man who chronicles world history through objects is back ... examining a new set of objects to explore the theme of faith in society' *Sunday Times*

Advocates of multilingualism are always seeking new ways to articulate the advantages inherent in living out life in more than one language. This volume brings together researchers from across Europe to explore sociolinguistic perspectives on multilingualism, with specific emphasis on identity, diversity, and social cohesion, as they focus explicitly on the potential of this phenomenon to empower individuals, groups, and communities. When she found herself single and retired, she set out on a true adventure, with Italy as her destination. In this travel memoir, Sheila details how she embarked down a winding road that led from the goal of teaching English as a foreign language, to becoming a student in an Italian language school in the center of Rome, Italy. Through personal letters and emails to friends at home, Sheila describes practical steps for planning an extended stay in a foreign country, the realities of attending a language school in a foreign country, and the importance of personal courage and determination when stepping far out of one's comfort zone.
