The Mitsubishi Pajero was first launched in 1983, creating a new class of 4x4, smaller and more affordable than the Range Rover. Renamed Shogun for the UK market, and Montero for Spain and the Americas, this rugged, yet refined, off-roader rapidly became Mitsubishi's best-selling export. In the 22 years since its introduction, the Shogun's popularity has gone from strength to strength, and in the UK grey imports of Pajeros now outnumber official Shoguns. This fascinating book, now available in paperback, is essential reading for all Shogun owners and enthusiasts.

Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades.
Written by experienced teacher Nora Henry, this Student Guide for practical Chemistry:
- Help students easily identify what they need to know with a concise summary of required practical work examined in the A-level specifications.
- Consolidate understanding of practical work, methodology, mathematical and other skills out of the laboratory with exam tips and knowledge check questions, with answers in the back of the book.
- Provide plenty of opportunities for students to improve exam technique with sample answers, examiners tips and exam-style questions.
- Offer support beyond the Student books with coverage of methodologies and generic practical skills not focused on in the textbooks.
