The Baltic States examines the struggles of the Baltic peoples for national self-determination. It is divided into two parts. Part one explores their nationalist awakening, how the realization of national self-determination during the inter-war years of independent statehood manifested itself, and the impact that fifty years of subsequent incorporation into the Soviet Union has had on Baltic politics and national cultures.

The Baltic States - The National Self-Determination of...

Independence from the Soviet Union in 1991 allowed the Baltic states to place controls on immigration, and, in the decade following, the Russian presence in Baltic life diminished. At the beginning of the 21st century, the titular nationalities of Lithuania and Estonia accounted for about four-fifths and two-thirds of the countries' populations, respectively, while ethnic Latvians made up just less than three-fifths of their nation's population.

The Baltic States: The National Self-Determination of...

The Baltic states, recently Sovietized by threats, force, and fraud, generally welcomed the German armed forces when they crossed the frontiers. In Lithuania, a revolt broke out and an independent provisional government was established. As the German armies approached Riga and Tallinn, attempts to reestablish national governments were made. It was hoped that the Germans would reestablish Baltic independence.

Occupation of the Baltic states - Wikipedia

The Baltic States are small compared to other European countries. The population in 2017 was: Estonia Population: 1.3 million; Latvia Population: 1.95 million; Lithuania Population: 2.8 million; But one thing they have in common is the Baltic Way a human chain uniting all three Baltic States from Tallinn through Riga to Vilnius. It was a peaceful demonstration of approximately two million people on 23 August 1989 to stand together for national liberation of the Baltic States.
