The Oxford Handbook of Economic Inequality assembles a star-studded cast and, with an Editors' Introduction, 26 distinct chapters, and over 700 pages of text, it delivers a massive compilation. The objective is to provide "an overview and evaluation of the current state of international research on economic inequality" and "to add new insights and open up novel perspectives for further research."

The Oxford Handbook of Economic Inequality (Oxford ...

Abstract. The Oxford Handbook of Philosophy of Economics is a reference work on philosophical issues in the practice of economics. It is motivated by the view that there is more to economics than general equilibrium theory, and that the philosophy of economics should reflect the diversity of activities and topics that currently occupy economists. Contributions in the book are thus closely tied to on-going theoretical and empirical concerns in economics.

Oxford Handbook of Philosophy of Economics - Oxford Handbooks

Oxford Handbooks Critical and analytical essays that make new and original arguments about law and economics Analyses Private and Commercial Law Together, the three volumes provide an extensive survey of recent findings and developing trends in the literature

This Handbook provides the first comprehensive collection of essays that addresses these issues, using the powerful framework of economics. The essays are divided into three broad sections—marriage and fertility; the labor market; and special topics and policy issues.

Oxford Handbook of Women and the Economy - Oxford Handbooks

The Oxford Handbook of Political Economy surveys the field of political economy. Over its long lifetime, political economy has had many different meanings: the science of managing the resources of a nation so as to provide

wealth to its inhabitants for Adam Smith; the study of how the ownership of the means of production influenced historical processes for Marx; the study of the inter-relationship between economics and politics for some twentieth-century commentators; and for others, a ...

Abstract. This handbook (the first of two volumes) opens up the diverse acuity of commentary on exciting topics, and in the process challenges and stimulates the quest for knowledge. Wide-ranging in its scope, themes, language, and approaches, this volume explores, examines, and assesses economic thinking on Africa, and Africa's contribution to the discipline.

Oxford Handbook of Africa and Economics: Volume 1: Context ...

This handbook represents the frontier of research into the economics of networks: how and why they form, how they influence behavior, how they help govern outcomes in an interactive world, and how they shape collective decision making, opinion formation, and diffusion dynamics. From a methodological perspective, the authors devote attention to theory, field experiments, laboratory experiments, and econometrics.

Given that the more comprehensive Culyer and Newhouse Handbook was published in 2000, this Oxford handbook is particularly useful in providing an overview of research in the past decade. The new handbook is also especially appropriate for an audience of non-economists. The chapters are short and rarely involve mathematics.
